Work Experience

Freelance Web Developer

2023 to Present

- Worked with local business to create its website (boulangerie.kg), increasing its visibility and customer engagement
- Launched health/exercise web app (quickstretch.app), creating an engaging experience aimed to improve visitors' well-being
- Used modern libraries and frameworks (NextJS, React, Sass, Tailwind, Figma) to create visually appealing and user-friendly websites
- Continually engaged in self-learning to stay updated with the latest web development technologies and industry standards

Freelance Copywriter

2015 to 2023

- Areas of work include journalism, political analysis, political campaigning, technical documentation and promotional writing
- Produced data-driven reports backed by extensive research and analysis of complex geopolitical issues
- Engaged in content localization (between English, Russian and Kyrgyz languages), contributing to readership engagement growth
- Translated sensitive political documents, speeches, presentations, press releases and digital content
- Translated technical documentation for international tech and construction companies

Freelance Illustrator

2015 to 2023

- Produced licensed artwork for Disney, Cartoon Network and more
- Worked with hundreds of clients and brought their characters and ideas to life
- Managed all processes of freelancing, from client communication and project management to invoicing and marketing
- Achieved recognition for illustration and character design work and was featured in numerous publications (including the Warner Bros. blog, ComicBook.com and others)
